Gold Coast Health Research Week Conference 2018

The annual Gold Coast Health Research Week Conference is running on Wednesday 14 and Thursday 15 November in the Gold Coast University Hospital lecture theatres. The event is free for anyone to attend and registrations are not required, with the exception of the partnerships evening. The program is yet to be released, however the main events are outlined below, which will be combined with themed abstract sessions and 3-minute lightning talk sessions.

Keynote and Panel: 10-11:30am 14 November

Professor Sallie Pearson from the University of New South Wales' Centre for Big Data Research in Health will present on the changing landscape of health data in Australia and the opportunities for health research. This will be followed by a panel of local researchers interested in use of health data, moderated by Professor David Henry from the Bond University Centre for Research in Evidence Based Practice.

Partnerships Evening: 5-7pm 14 November

This evening, entitled 'Clinician-academic Partnerships: A Recipe for Success', will feature a panel of clinicians and academics discussing their collaboration experiences. Discussion will include challenges to working with each other, how they were overcome, and how to set a new clinician-academic partnership up for success. The panel will be moderated by Dr Jeremy Wellwood, Executive Director of Clinical Governance, Education and Research.
